

In God We Trust?

by David J. Stewart

Without a doubt, the biggest lie in America is that we trust God. Most people living within the United States **DON'T trust God**. We don't trust God as a nation. We don't trust God in our public schools--teaching the lie of evolution instead of creationism. We don't trust God in our laws--permitting homosexuality, abortion, prostitution, gambling, alcoholism, and many forms of evil which subvert and destroy societies. We don't trust God in our churches--worshipping idols instead of Jesus, and confessing sins to priests instead of God. As a nation, we have all sinned, and are guilty. It is called "corporate responsibility." As a nation, we are all to blame.

We Americans are Hypocrites!

We are so hypocritical as Americans. We say we trust in God while allowing the murder of millions of babies through abortion to continue. We say we trust in God, but there are hundreds of different false gods which Americans worship, including the abominable Catholic Queen of Heaven. We surely don't trust in Jesus Christ, the God of the Bible. We say we trust in God while openly accepting sinful homosexuality into society. God is very angry about this (Psalm 7:11). How do we expect to remain a free country in lieu of such wickedness? Also, why is it that we can boast of our desire to die rather than lose our freedom, while we demonize and label the Iraqi's as terrorists for doing the exact same thing. Iraqi had nothing to do with 9-11. We label our enemies as terrorists, while we call ourselves freedom fighters. Who's doing all the killing? We are!!!

We Americans Take Our Freedoms for Granted

Most American citizens take their freedoms for granted. In most cases, it is NOT because they are unpatriotic, but because they are complacent (relaxed) in their present state of freedom. What many people don't realize, and others don't care to realize, is that freedom is NOT a guaranteed right...it must be fought to maintain or we'll lose it. History has taught us that government has a tendency to grow into a monster which eventually overpowers it's people. Unbeknownst to many Americans, a police state is now being constructed right under our noses in the very name of "FREEDOM." Few American are aware of [Operation Garden Plot](#), a government program developed during the Reagan administration (and still active today) to detain American CITIZENS in the event of a national uprising. Now why would the government be worried about something like that happening? The answer is obvious to anyone who is awake --Our **government leaders** are literally getting away with murder, bankrupting the country, deliberately destroying America's sovereignty, ripping off [trillions of taxpayer dollars](#) (video clip), giving away our [national parks](#), destroying our economy, stealing our land, and perverting justice. They have every reason to worry. Laws are changing nationwide in response to all the FEARS generated by the terror-mongering from government sources, from the White house to the FBI. Yet, there have been NO terrorist attacks in America since 9-11-2001. We are afraid of the boogeyman.

There is NO War On Terror

I have no doubt that more and worse attacks are on the way. The only reason why we haven't seen any more attacks yet is because most Americans have already sold their souls to the Bush Administration since 911. Tragically, even America's churches are foolishly backing George W. Bush in his evil campaign of terror overseas. The FACT that our borders have remained wide open since 9-11 PROVES that Bush and his accomplices are dirty-rotten liars. The whole ordeal in Iraq is NOT about freedom or protecting America, it's about oil, power, and the New World Order. Our children are dying in Iraq for the **selfish interests** of rich elite families, NOT for freedom, and NOT for America. Cindy Sheehan didn't realize this until she lost her son, does yours have to be next? How many more needless deaths? How many more innocent people are going to be killed for the cause of "FREEDOM"? It's all a great big lie!

The U.S. invaded Iraq on the premise that Saddam was involved in 911, with NO proof or evidence whatsoever. Then after we captured Saddam, we attacked the Iraqi people and killed over 100,000 of them. Those poor Iraqi citizens had nothing to do with 911. We've been viciously lied to by the U.S. government and the corporate controlled news media. The present White House administration has commit blatant and malicious acts of violence against the innocent people of Iraq. If Saddam were the monster that the Bush Administration and the U.S. news media have made him out to be, why are hundreds of thousands of Iraqis fighting to the death to defend their country? Could it be that they would rather "LIVE FREE OR DIE"? The elections which have been held in Iraq are all staged, there is NO freedom --The U.S. White House administration and it's allies completely control Iraq. The Iraqi people are now slaves to a different master.

Freedom is Not a Guaranteed Right

America will NOT remain free indefinitely if we continue to live in sin and indifference to evil. Even now, our freedoms are being stripped away. America's people do NOT trust in God...NOT in the God of the Bible...NOT in the Creator of the universe...NOT in the Precious Saviour, Jesus Christ. "IN GREED WE TRUST" would be much more appropriate. The love of money has corrupted America's citizens through Hollywood, pornography, rock n' roll music, and everything else imaginable. LIVE FREE OR DIE? You'll probably get your chance one day the way

this country is going. A more likely option is that you'll be permanently detained in a federal prison or an American interment camp on charges of terrorism for simply speaking the truth. Christians and patriots will be severely persecuted. Across America, local police forces are presently being militarized by the federal government. The days of "officer friendly" are over, now it's a bunch of thugs in Darth Vader combat uniforms. The boogeyman of "terror" is being used to transform America into a totalitarian police state. It's sickening what is happening. Citizen, Show me your papers!
